Trim Line

Any background color should be filled to Trim Line , there is NO necessary to keep the background inside the Safe Line.

Safe Line

Please keep the important information, such as LOGO and TEXT inside the Safe Line.

*The template is in 100% acutual size , and Image/Picture should keep a resolution of 150dpi for high quality printing .

*Please convert the text into vector elements(type menu->create outlines) & hide Safe Line before send to us .

*Any special color must be called out with PANTONE Color Code , and notice us in email for correct color matching . if don't have the PMS color , please must give us the CMYK colour , not RGB color .

Produce

1, Download the artwork template from our website .

2, Place the order into our webiste and upload the artwork to our website with your order number (very important)

3, If the artwork is ok , you will receive the proof , please approval to us .
